	Harness / Lanyard / Shock Absorber			Pass / Fail		
	Harness / Lanyard / Shock Absorber			Pass / Fail		
	Harness / Lanyard / Shock Absorber			Pass / Fail		
	Harness / Lanyard / Shock Absorber			Pass / Fail		
	Harness / Lanyard / Shock Absorber			Pass / Fail		
	Harness / Lanyard / Shock Absorber			Pass / Fail		
	Harness / Lanyard / Shock Absorber			Pass / Fail		

02 INSPECTION CHECKLIST

Each item checked against these criteria:

☐ Webbing — cuts, fraying, abrasion, UV damage

☐ Stitching — intact, no pulled or broken threads

☐ D-rings / buckles — no cracks, deformation, or corrosion

☐ Labels — legible, date in service recorded

☐ Energy absorber — pack intact, no signs of deployment

☐ Lanyard hook — gate function, lock mechanism, no damage

03 SIGN-OFF

Inspected By: _____

Date: _____

Reviewed By: _____

Next Inspection Due: _____

Defective equipment must be tagged and removed from service immediately. Do not attempt to repair height safety equipment — return to manufacturer or destroy.
